Installation Procedures

ArrivalTime

Arrival time has been scheduled with your Project Manager and the client. Please contact the PM if you are going to be later than the predetermined time so they can notify the client.

Inventory of Shipment

The installation team should conduct a physical inventory of all products shipped to the site. There are (2) color copies of the approved installation GoBy. The box containing the GoBys has a sticker on the outside. If there are any missing items or damage has occurred during shipping, please notify the PM immediately. Pictures should be taken of any damaged products. The PM will advise if we can install or a reprint will be necessary.

Walk Through with Onsite Contact

Upon arrival, a site walk-through should be conducted with the onsite contact using the supplied GoBy. Site issues, placements and any questions can be resolved immediately.

Upon installation completion, review the graphic placements and obtain the client's signoff of the Installation Completion Form. Note any issues or items that could not be installed and reason.

Installation Completion

Please do not leave the job site until after you speak to the PM

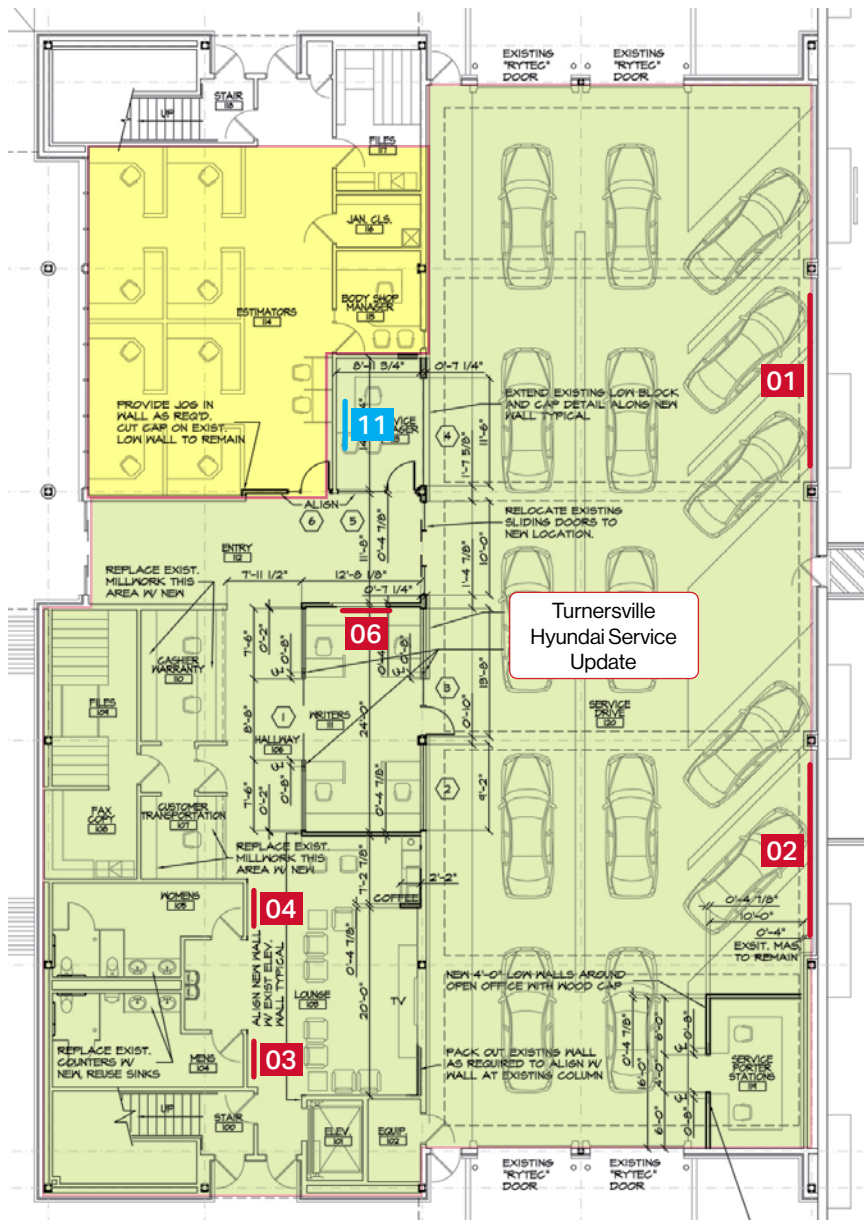

1. Contact the PM and provide status update, communicating any onsite changes to the approved GoBy or placement issues.
2. Confirm the lift can be called off.
3. Send completion photos of all graphics installed at the site. Photos should be sent to the PM within 24 hours of completion.
4. Have client sign the Installation Completion Form prior to departing the site. Note any issues or items that could not be installed and the reason.

NOTE: The Installation Completion Form and photos are required in order to process your invoice.
